## **BTNI's Mission Statement**

**Building Overall Character and Expanding Life Experiences through Baton Twirling  
and Associated Athletic and Artistic Activities.**

**The Baton Twirling Network, Incorporated is a place where all baton twirling athletes, professionals, organizational directors and interested parties, regardless of affiliation can actively participate in the sport of baton and grow.**

**We are an athletic education and training organization that not only offers baton twirling experiences, but also crosses over into any and all athletic and artistic activities from which a baton twirler can benefit. We invite one and all to come to camp and create wonderful memories while learning from baton twirling and other activity experts.**

***COME EXPERIENCE CAMP AS YOU NEVER HAVE BEFORE!!***

**Camp will help develop new skills and interests as well as perfect old ones. Learning through direct experience is a great way for children to gain a sense of self worth, learn to respect and work with their peers while developing trust.**

We will have an expertly scheduled curriculum that encompasses baton twirling and related activities for every age and ability. The curriculum will encourage every camper to develop skills in many areas. Younger and less experienced campers will be following a more structured class plan than that of the older and more experienced campers. All, however, will be able to choose what skill classes they want to attend.

BTNI's staff is at camp for one reason only. They are there to accompany your camper on a journey to the wonderful world of "learning" while reaching high to realize their full potential and developing lifetime memories. Everyone who attends will take home gifts, knowledge and new friendships.

The **Baton Twirling Network, Inc.** was founded on the belief that all children have an equal right to have fun, feel good about themselves and have access to whatever tools they need to help them in life to be successful as a "person". Since baton twirling is the common thread among most of who participate in BTNI, we added the summer camp series nine years ago to our existing programs. In addition to the baton skills taught at our camps; we work hard including **life skills and positive quality life experiences to fulfill our mission.**

Over the years our camp has had the privilege of having Team USA members as campers. They started as some of our youngest campers and grew up to become **role models** for our current day and future campers.

During our camp week, our campers learn to appreciate a sense of **independence, compassion, goal setting and discipline.** We welcome "Tiny Tots" to our camp. We stream line a special curriculum just for them. The excitement they feel being a part of the camp experience helps motivate them, even at this young age, to set some goals now for their future. We have had 4 year olds who celebrated their birthday during camp week with us! (We have celebrated several birthdays, for campers of all ages, while at camp!)

We offer a little bit of everything for everyone who attends our events. Camp is no exception. Beginners through world class elite...we have classes for you. Our camps and clinics are also the **perfect event for any coach who wants to become better at instruction and dealing with the children they are entrusted with in their own programs.**

We will include other camp activities this year even though for 2011 this is a day camp. We want all who attend to experience other things as well as baton twirling.

Join us at camp. You will have a great time.
